

WHO IS DR. DIANA DRISCOLL?

Doctor, patient,
inventor, author

Invisible illness expert

An authority on the autonomic nervous system, Dr. Diana Driscoll, Optometrist, FAAO, is a world-renowned expert on POTS (Postural Orthostatic Tachycardia Syndrome), and other “invisible” illnesses. As an author, speaker, inventor and devoted researcher with four patents to date, she continues to push forward with dramatic shifts in the evaluation and treatment of these conditions.

Dr. Driscoll's personal battle with POTS inspired a decade of self-funded groundbreaking research and innovative treatment. Now an authority on POTS, IIH, post-COVID Longhaulers, ME/CFS, the vagus nerve, dry eye disease, neurological gastroparesis, and brain health, she offers the compassion of a former patient, as well as strong science.

She has dedicated her life to helping those affected, earning her the title of “The Patient’s Researcher”.

SAMPLE TOPICS

- **Invisible Illness:** from the viewpoint of both patient and practitioner
- **POTS:** Postural Orthostatic Tachycardia Syndrome
- **POTS and Post-COVID Longhaulers**
- **EDS:** Ehlers-Danlos Syndrome
- **The autonomic nervous system and its role in many invisible illnesses**
- **The vagus nerve:** What we missed and what we can do about it
- **You don’t need to stimulate your vagus nerve**
- **Are you sure it’s your vagus nerve or could it be a neurotransmitter problem** (and how can you tell the difference)?
- **Gastroparesis:** What has been missed and how did I figure it out?
- **Gallbladder not working?** Could it be neurological?
- **The story of my son, who became disabled at the age of eight and missed 3 years of school, and is now living a successful college student life**
- **SIBO:** Why is there so much of it in invisible illness patients and what we can do -- without antibiotics
- **Having an invisible illness involves the entire family:** advice from someone who has lived it
- **The symptoms of mental illness that so many patients experience, and why.** What it felt like for me and how I recovered.
- **How an eye doctor got answers for invisible illnesses**
